Experience

Sonos, Inc.

17 yrs 5 mos

Distinguished Designer

Jul 2018 – Present · 2 yrs 4 mos

Santa Barbara, California Area

I recently pivoted to spend more time focusing on project work. I was design lead for our integration with Apple AirPlay and I'm now excited to be running design projects that define how Sonos products are made available to more third party partners. These partners include music services and the makers of connected home products. The first step of this was going live with the Sonos open developer portal in September 2018. <http://www.developer.sonos.com>. More to come as I dig into this role.

Director User Experience Design

Jun 2003 – Jul 2018 · 15 yrs 2 mos

Santa Barbara, California Area

As the founding member of the UX team at Sonos, I was given the opportunity to create something from the ground up and build a team to redefine the hardware and software user experience for sound in the home. It's been a thrilling ride so far and the future promises to be even more exciting as music streaming services and the connected home become commonplace.

As well as lending a hand in launching some game-changing products, I'm particularly proud of the culture of design we've created at Sonos. It's never the case that a designer has to fight for a seat at the table: design and a human-centered focus are built in to all our projects, and it's been like that since the very early days.

Senior Interaction Designer

Invention Machine

Apr 2001 – Mar 2003 · 2 yrs

Greater Boston Area

Invention Machine is a leading provider of innovation software for teams working on complex engineering products and systems. My role was to understand the needs of B2B customers such as NASA and Boeing, and work with a remote engineering team to create an experience that was as accessible as it was powerful. The result was the first edition of the Goldfire Platform. ...see more

Senior Interaction Designer

Weave Innovations

Jun 2000 – Mar 2001 · 10 mos

San Francisco Bay Area

My first foray into the world of startups. I longed for the thrill of working in a small team on a new product in the buzz of Silicon Valley. We produced the world's first digital picture frame and

Philips Design

6 yrs

Senior Interaction Designer

1997 – 2000 · 3 yrs
San Francisco Bay Area

I moved to the Bay Area to help Philips Design establish a presence in Silicon Valley. We worked mostly on new business products that Philips was incubating. I was part of the design teams that produced the Philips Pronto Universal Remote Control, and the Philips Nino PDA.

Interaction Designer

Jan 1994 – Jun 1997 · 3 yrs 6 mos
Eindhoven Area, Netherlands

My dream job coming out of college. This was the early days of 'Humanware' at Philips under the guidance of Stefano Marzano and Irene McWilliam. I was the lead Interaction Designer for the Philips Vision of the Future project, a designer in the KidCom group, and a designer on a number of projects with Philips Research.

Dave Caro

Telecommunications Specialist at Air Force Civilian Service

April 3, 2016, Rob worked with Dave in different groups

Two words come to mind when recommending Dave - he's a "can-do" type of person. Always positive, always willing to go the extra mile, always willing to try something new.

Liesbeth van den Berg

Associate Director of UI Design

April 3, 2016, Rob managed Liesbeth directly

Liesbeth is a highly skilled and experienced visual designer with whom I've worked for many years - first at Philips Design in Palo Alto and more recently at Sonos. She has eye for visual clarity and simplicity and is able to make her designs work across many platforms. She is particularly good at working alongsid... See more
